## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Drawings***

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the two side sections (only one is shown) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 5, the phrase "rigid roof shells" is indefinite. It is unclear exactly how many roof shells are claimed by the phrase.

Art Unit: 3612

Claim 1 recites the limitation "the deposit position" in line 11. There is insufficient antecedent basis for this limitation in the claim.

In claim 1, lines 11 and 12, the phrase "upwardly relative to the respective side sections" is indefinite. It is unclear what the orientation of the center section is according to the phrase.

Claim 1 recites the limitation "said side sections of the front and rear roof shells" in lines 12 and 13. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "the center sections of front and rear roof shells" in lines 13 and 14. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "the curved upwardly facing intermediate roof shell" in lines 16 and 17. There is insufficient antecedent basis for this limitation in the claim.

Claim 6 recites the limitation "the outer roof surfaces" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 9 recites the limitation "the adjacent ends of the center roof shell" in lines 2 and 3. There is insufficient antecedent basis for this limitation in the claim.

***Allowable Subject Matter***

5. Claims 1-9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 3612

*Conclusion*

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kinnanen, Obendiek et al., and German Publication 3903358 disclose vehicle convertible tops.
